FIRST TEXAS TOMATOES ARRIVED HERE YESTERDAY

They Are First-Class and Are Worth \$1.75 a Four-Basket Crate-Potato Prices Advanced 10 Cents.

The first shipment of Texas tomatoesthe best tomatoes in the land, according to commission men-arrived in Indianapolis yesterday. They are crated in lots of four baskets and are selling at \$1.75. This price is a little below the price at which the first Florida tomatoes of the season were started on the local market. The season of the Texas tomatoes is now well on, and several cars of them will be received before

the end of the week. The first watermeions of the season were received here yesterday morning. They are first-class melons, and are being put out at \$35 a hundred. Receipts will become iberal in a short time.

The first-of-the-week receipts of potatoes were not quite so liberal as the receipts the latter part of last week, and prices were advanced 10 cents a bushel, both on the new and the old, putting both stocks back to \$1.50 a bushel. Shipments of Egyptian onions are practically over, and they nave been taken from the list. The Bermudas are worth \$2 a crate. The price of strawberries was reduced 25 cents, to \$1.50. Home-grown berries are the only ones quoted now.

WHEAT GOES 3-4C LOWER

OPTIMISM REGARDING CROPS WAS THE BEARISH FACTOR.

The Market Was Weak Right from Opening-Liberal Receipts Caused Very Weak Corn Market.

garding both foreign and domestic crop showed a net loss of %c. Corn is off 1%c. at an advance of 71/2c to 20c.

Improved weather conditions and easier cables influenced wheat at the start. Week ly statistics also were a disappointment to the bulls. Initial quotations on July were 1/8c to 1/4c lower, at 87%@88c. After selling down to 87% 687% the price rallied to 88% c. The firmer feeling was due primarily to private advices regarding the crop situation in the Southwest, a prominent firm having quite bullish reports from that section.

While there was some buying on these reports, the majority of traders were skeptical as to the poor prospects and the market soon developed renewed weakness. Foreign news was extremely bearish, advices from France and India claiming crops to be in excellent condition.

for this week snowing a decrease of only refined, 4.63@6.08c. 972,000 bu, compared with a 2,536,000 bu decrease last week. Weakness in corn was an added bear factor. After selling off to 87@ 87%c July closed at 87%c.

Clearances of wheat and flour were equal | On track and to arrive, 411/2c. to 150,200 bu. The amount on passage increased 672,000 bu. Primary receipts were 422,200 bu, compared with 501,400 bu a year ago. Minneapolis, Duluth and Chicago reported receipts of 352 cars, against 450 cars \$1.471/2; September, \$1.50. a year ago.

Exceedingly liberal receipts, with prosthe principal cause of an extremely weak | mixed, old, 4s 61/2d. corn market. Trading was fairly active, with influential interests arrayed on the selling side. The downward trend of prices was a natural result of decidedly bearish | week were 819,900 lbs. advices. Primary receipts were large and the visible supply increased over 500,000 bu, compared with a decrease of nearly 1,500,000 bu last week. Another bear factor was an official forecast for better weather throughout the corn belt. The market closed almost at the lowest point of the session. July opened 14@16c to 16c lower, at 491/4@ 491/2c, sold between 481/2c and 491/2c, and closed at 4854@4834c. Local receipts were 827 cars, with 55 of contract grade. Oats were easy, but there was not much selling pressure on the market, and at the low point prices showed only small losses.

Better weather and weakness in other grains were the depressing influences, but the light movement and small stocks curbed selling. July opened a shade to 1/4@1/4c lower, at 39% @39%c, ranged between 39%@ 391/2c and 391/4c, closing at 395/4c. Local receipts were 138 cars. and corn, buying by commission houses

Corresponding day last year

NEW YORK, June 6.-The accumulation of Ontario & Western stock in to-day's market had more the appearance of an active speculation than anything that has occurred in stocks since the movement in Union Pacific, in connection with the

Northern Securities decision.

The general market proved itself almost wholly irresponsive to this influence, in spite of vigorous efforts on the part of small room traders to extend the move-The dealings in Ontario & Western in the

whole market for the entire day. The outcome of the incident had the effect of leaving speculative sentiment more than ever hopeless over the chance of inducing any The dealings were quick to drop into the condition of apathy which has character-

ized trading for some time past. The organized movement on the part of a party of stockholders in Ontario & Western to effect the dissolution of the voting trust is held to account for the movement to-day. Various opinions as to the source of the buying were circulated, including the voting trust party, the Canadian Pacific and the Pennsylvania. No authority could be

learned for any of these rumors, nor for the assumption that the voting trust is to be dissolved at all. In the lethargic condition which overcame the later market the The Chicago Great Western stocks were the most conspicuous groups of stocks today. There was not the slightest evidence of support for those securities, which have shown little activity for a long time past, except the common stock. Small amounts of the stock were sold apparently for what they could bring, with the market bare of buying orders on the way down. No news respecting the specific affairs of the company was forthcoming, and the incident was supposed to mark the general fear that in a period of declining traffic and possible rate competition for business small unattached railroads will be illfitted to compete with the great systems. Amalgamated Copper rose 34 per cent. when the re-election of the directors with-

out opposition became known, but the gain the subsidence of floods in the Southwest was regarded with satisfaction, and it was pointed out that Southwestern railroad earnings from this time will make favorable comparison with the flood damage period of last year. Railroad trame officials had no change to report in the diminished volume of traffic. There was a rather notable expansion in

NEW YORK, June 6 .- There was a variety of excitément in the stock market to-day, but unfortunately it was located in quarters that did not, give the average trader much of a chance to take part in it. The bulls had their inning in one quarter and the bears 64 made up lost ground in another quarter, item of interest for a review of the market, That stock began to advance the moment the market opened, and sold up from the close on Saturday of 22% to 25%. The transwell in excess of 70,000 shares. The total transactions for the day in all stocks were only double the amount traded in in Ontario & Western. There is no official explanation of the advance. It is said that .104% the voting trust will be dissolved in a short time, but the president of the road asserts 105% that no report will be made on that question until the end of the month. Nevertheless it is probable that the voting trust will be eventually dissolved. There is another story, for which we cannot yet vouch, to the effect that a plan is being considered by which the gapital stock will be scaled down from \$58,000,000 to \$20,000,000, the stockholders being asked to accept one share of new stock for three shares of the present 155% issues. Their equity would be preserved the company last year were \$860,000, it would per cent. on this new capitalization. Officially nothing has been heard of this plan yet. Chicago Great Western issues were weak to-day, the "A" preferred issue breaking to 471/2, a drop of 131/2 points. The "B" issue was weak also, and the common stock broke easily. There was nothing to account for the weakness, except rumors that sside the dividend on the preferred issues mar not be paid. Some old Rock Island stock came out to-day at a price considerably lower than the lowest recorded. Amalgamated Copper was steady throughout the day. Pennsylvania eased off fractionally, There was no response in Brooklyn Rapid Transit to the bull in Sunday earnings, There was some good buying of Erie. Steel preferred eased off fractionally, and Reading, after early strength, sold off. London did very little. Money was unchanged.

Harriman Files Bill.

TRENTON, N. J., June 6.-Counsel for Edward H. Harriman and Winslow S. Pierce to-day filed in the United States Circuit Court a second amended bill in the suit brought by them to restrain the carrying out of the proposed pro rata plan of distribution of the assets of the Northern Securities Company. The amendments are intended to meet the points raised at the recent argument of the case before Judge Bradford. Counsel for the Northern Securities Company at that time insisted that Harriman and Pierce, through J. P. Morgan & Co., had sold their Northern Pacific stock outright, and that they had no equitable right to have the stock returned to them. Counsel for Harriman and Pierce had argued that in consequence of the Supreme Court's decision against the Northern Seculities Company, the stock of the Northern Pacific Company had never legally passed to that company. It is averred that it was well known to all concerned that the Northern Securities Company was formed solely for the purpose of acquiring and holding the stock of the Northern Pacific and Great Northern roads and operating these roads jointly, and that this understanding constituted in law the Northern Securities Company as custodian of the stocks of the two railroads of the original owner rather than an absolute

owner itself of the stock. C. & E. I. Dividend Increased.

NEW YORK, June 6.-The Chicago & Eastern Illinois Railroad Company has declared the regular quarterly dividend of 14 per cent. on its preferred stock and a dividend of 5 per cent. on its common stock. This is an increase of 2 per cent, for the six months on the latter issues, and at the rate of 10 per cent. per anmittee of the various interests which have num.
